Dr. Susan Ross
Express Family Clinic
102 First Rd, Suite K
Reisterstown, MD 21141

Dear Dr. Susan:

I noticed your business does not have a website. If you have been planning to have a website to connect with your customers and grow your business, choose the best. When it comes to website design, programming, and marketing, what we do is better than anyone else in the region.

For each client, I personally design the website that is optimized for search engines (i.e., Google, Bing, and Yahoo!) and is compatible with all major web browsers. I have been developing websites and programming for over a decade. I have demonstrated consistent success record throughout my career and for my clients.

Don't let another day go by without a website for your business. Let us launch you a website. For a limited time, our website packages start at \$249*. For customized web solutions please feel free to contact me or you can use our online quote request form.

Access TechnaCenter.com/Launch to order online! Add your name to our satisfied clients list.

I look forward to hearing from you and serving you. Thank you for your consideration.

Sincerely,

Raj Singh
General Manager

*Offer is limited to new business customers. Limit one offer per customer/website. Offer is not transferrable and cannot be combined with other discounts.

IT solutions for small businesses: Software development • Website services • E-newsletters / Email marketing • Training / seminars • More
